

Make Your PC a State of the Art Digital Voice Recorder!

The stakes are high in many business activities conducted today. There is no room for error or ambiguity. That is why you need to ensure that the information you collect contains the necessary details and important facts that are uncompromised. You also need access to information that is accurate and easy to locate.

What's the solution?

YOUR KONEXX SOLUTION

The KONEXX Phone 2 PC – Secure is the ultimate low cost on-demand recording solution. Record telephone conversations digitally to your PC or notebook. File the recordings for later retrieval and playback.

- ❑ Play back all of your important conversations. Easily access and replay of important details that transpired.
- ❑ Be assured that the recordings you make are heard in their original form, without being tampered with or altered.
- ❑ Eliminate the disadvantages of old-fashioned tape recorders and improve recording quality dramatically.
- ❑ Great organizational tool that saves your conversations in folders and directories on your PC just like your Word and Excel files.
- ❑ Share necessary information with your colleagues by emailing the conversations as an attachment.
- ❑ Replace note taking and memory for the complete recall of important conversations.
- ❑ Both sides of the conversation are recorded clearly.
- ❑ Compact size and lightweight interface with easy to use recording software.

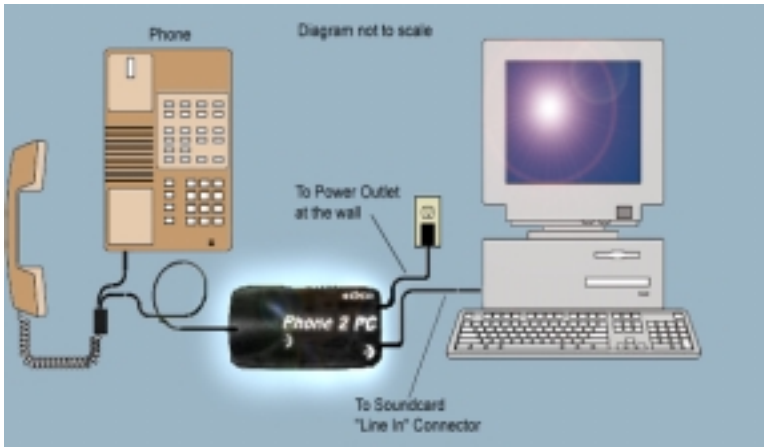

Recording and saving your conversations is quick and easy with Konexx Phone 2 PC – Secure

Phone 2 PC Interface

Phone 2 PC – Secure

Features:

- ◆ Phone 2 PC hardware and software easily installs on an individual PC or notebook.
- ◆ Recorded files may be stored on the local hard drive or a network server.
- ◆ Phone 2 PC Interface connects your telephone with your computer soundcard, enabling you to record telephone conversations as compressed “wav” files.
- ◆ Saved files can be e-mailed as attachments and archived for future reference.
- ◆ The original recording’s integrity is maintained by using permanent voice stamps at the beginning and end of the recorded conversation.

- ◆ Phone 2 PC – Secure will not allow the editing of the original recording, ensuring the user and others that the original recording has not been tampered with.
- ◆ Bookmarks can be inserted during record and playback, which provides easy access or reference to important points in the recorded conversation.
- ◆ Auto file naming feature allows you to save files with prefixes and/or date/time as the file name automatically.
- ◆ Add an annotation at the beginning or end of the recorded file.

Applications:

- ☞ Health Care – Collections, Consultations, Insurance Authorization, Prescription Authorizations, etc.
- ☞ Insurance – Claims Investigation, Fraud Investigations, Customer Care, etc.
- ☞ Private Investigators – Capture incriminating evidence during phone conversations, etc.
- ☞ Financial Institutions – Record Wire Transfer Authorizations over the phone, Confirm any phone transaction, etc.

Specifications:

- Phone 2 PC software uses GSM 6.10 compression algorithms to keep file sizes manageable (1 hour of recording time = approx. 5.6 MB).
- Compatible with any Microsoft Windows OS.
- Automatic Gain Control (AGC) circuit ensures conversation is recorded clearly.
- Interface size: 3.0” (L) x 1.3” (W) x 1.0” (H).
- Weight: 1.5 ounces.
- Powered by external AC adapter – 18 VDC 300 mA.
